

EE-1 Greek Reading Practice

Name _____

Please read all instructions carefully

Read the following names aloud. Write out each name **in Greek**. Then write the **English** form of each name. All are common New Testament names (person or place). Some are obvious. Some names may not be easily recognized because they are pronounced differently in English than their Greek names, but they are close enough so that you should recognize them. Pronouncing each name out loud should help.
