

# EE-7 Hebrew Reading Practice

---

Name \_\_\_\_\_

Please read all instructions carefully

Read the following names aloud. Write out each name **in Hebrew** (including vowels). Then write the **English** form of each name. All are common Old Testament names (person or place). Some are obvious. Some names may not be easily recognized because they are pronounced differently in English than their Hebrew names, but they are close enough so that you should recognize them. Pronouncing each name out loud should help.
