

WA233 Worship & the Arts

Case Study 7 Question:

Continuing the process from the last two case studies, create and describe a vision for a worship event. Describe what you think God wants to accomplish in this event. What does God want us to do? What kind of revelation(s) of Himself does God want to make? What response(s) does God want us to make? What does the congregation need to experience/hear/know from God? What does the congregation need to do to please/connect with God? Out of these questions, describe the theme(s) of the event. Describe the content and function of the event. Don't yet describe the form that this will take (that is next week's assignment) but concentrate on content and function (that is- What specifically do you think God wants to accomplish in this event?).
